This Property is located in an area designated as "Special Flood Hazard" on the National Flood Insurance Program Community Map 470189, Panel No. 0109±, Zone: AE, Dated: October 16, 2008.

PLAT NOTES

1. In Tennessee, it is a requirement per "The Underground Utility Damage Prevention Act" that anyone who engages in excavation must notify all known underground utility owners, no less than three nor more than ten working days of their intent to excavate. A list of these utilities may be obtained from the County Register of Deeds. Those utilities that participate in the Tennessee One Call system can be notified by calling toll free 1-800-353-1111.
2. Underground utilities shown were located using available above-ground evidence, and also from information obtained from the respective utility companies. The existence or non-existence of the utilities shown and any other utilities which may be present on this site or adjacent sites should be confirmed with the utility owner prior to commencing any work.
3. It is the responsibility of each builder to design and construct a suitable grading and drainage scheme which will convey surface water, without ponding in the lot, from his structure to the drainage system constructed by the subdivision developer.
4. Parcels may be subject to additional easements, and/or restrictions, by record or prescription, that in complete title search may reveal. Public utility and drainage easements where shown herein are intended to indicate an easement for construction, operation, and maintenance of public utilities and drainageways; including, but not limited to, sanitary sewers, force mains, water lines, telephone, signal conduits, electric conductors, drainage pipes, and natural gas lines.
5. No driveway connections to Lee Victory Parkway without the prior written approval of T.D.O.T.
6. No construction within the Right-of-Way of Lee Victory Parkway without the prior written approval of the Tennessee Department of Transportation.
